Work Experience

Food Truck Manager

2021-2023

I managed and helped several food trucks for companies such as Sugarfire Smokehouse, Red Dirt Revival, and Go Gyro Go. I aided in launching two trucks during this time, and oversaw a variety of day-to-day operations. Food trucks are truly the epitome of a flexible work environment, and instilled a great deal of transferable soft skills such as: on-the-fly problem solving, strict reliability, and constant adaptability.

Restaurant Management

2017-2020

After culinary school, I worked my way up through supervisory and managerial positions across several restaurants such as Chili's, Block & Board, and Sugarfire Smokehouse. In addition to culinary skills, I also learned a great deal of soft skills such as: time management, consistency, and employee relation skills. Toward the end of 2020, I was laid off from Sugarfire after months of declining business during COVID.
